Kibbutz Contemporary Dance Company (KCDC), hosts a unique 5-Month & 10-Month international dance program known as Dance Journey. Open to dancers 18 years and up from around the world, this incredible program provides an outstanding opportunity for professional development while dancing side-by-side with KCDC dancers and while learning from one of the leading dance companies in the world.

With a faculty composed of some of the best choreographers and teachers throughout Israel, the Dance Journey program includes KCDC repertoire, ballet, modern, contemporary, and a space for participants to create original choreography. The program also offers Hebrew classes, tours around Israel, volunteering activities, and more.

Starting every September and February, the program takes place in the International Dance Village, Kibbutz Ga'aton, where KCDC dancers and participants of the Dance Journey program study and live together.
